

Infertility Diagnosis, Treatment and Fertility Preservation

This Medical Policy applies to members of the APWU Health Plan:

- Effective 1/1/2024 annual Infertility Benefits are available for artificial insemination (AI), including intravaginal insemination (IVI), intracervical insemination (ICI) and intrauterine insemination (IUI) and coverage for infertility medications, including IVF related drugs.
- Effective 1/1/2024, Infertility drugs may be used for any infertility treatment, i.e. preparation for Artificial Insemination, preparation for IVF or preparation for fertility preservation.
- Effective 1/1/2023 Fertility Preservation Benefit for Iatrogenic Infertility is limited to a lifetime maximum of \$12,000/person. This benefit covers fertility preservation procedures (retireval of and freezing of eggs or sperm) needed due to chemotherapy, pelvic radiotherapy, ovary or testicle removal and other gonadotoxic therapies for the treatment of disease and/or gender reassignment.

Benefit Exclusions: Infertility services after voluntary sterilization; Assisted reproductive technology (ART) procedures such as: In vitro fertilization (IVF); embryo transfer and gamete intra-fallopian transfer (GIFT) and zygote intra-fallopian transfer (ZIFT); services and supplies related to ART procedures; cost of donor sperm, and cost of donor egg.

Definition of Infertility:

Infertility is the result of a disease (an interruption, cessation, or disorder of body functions, systems, or organs) of the reproductive tract which prevents the conception of a child or the ability to carry a pregnancy to delivery.

Coverage:

APWU Health Plan has built their claims system to identify primary diagnosis code and link it to covered infertility services in order to determine appropriateness and then allow up to the benefit limitations noted in the Health Plan brochure.

The following tests or procedures are proven and medically necessary for diagnosing or treating Infertility:

Infertility Benefit Professional Services

58321	CPT	ARTIFICIAL INSEMINATION INTRA-CERVICAL
58322	CPT	ARTIFICIAL INSEMINATION INTRA-UTERINE
58323	CPT	SPERM WASHING FOR ARTIFICIAL INSEMINATION
58340	CPT	CATHETER FOR HYSTEROGRAPHY
58345	CPT	REOPEN FALLOPIAN TUBE
58558	CPT	HYSTEROSCOPY BIOPSY
58672	CPT	LAPAROSCOPY FIMBRIOPLASTY
58673	CPT	LAPAROSCOPY SALPINGOSTOMY
68760	CPT	CLOSE TEAR DUCT OPENING
74740	CPT	X-RAY FEMALE GENITAL TRACT

Iatrogenic Infertility

Definition of Iatrogenic Infertility:

An impairment of fertility by surgery, radiation, chemotherapy, or other medical treatment affecting reproductive organs or processes.

Iatrogenic Infertility Benefit:

Applies to a member who has planned cancer treatments such as chemotherapy, pelvic radiotherapy, ovary or testicle removal and other gonadotoxic therapies for the treatment of disease and/or undergoing gender transition.

Coverage:

The Health Plan has built their claims system to identify primary diagnosis code and link it to covered fertility preservation services in order to determine appropriateness and then allow up to the benefit limitations noted in the Health Plan brochure.

Coverage includes the collection of sperm, cryopreservation of sperm, ovulation induction and retrieval of eggs, oocyte cryopreservation, ovarian tissue cryopreservation, assisted oocyte fertilization, and embryo cryopreservation. Long-term storage costs (i.e., anything longer than twelve months) are the responsibility of the member.

Fertility Preservation Professional Services:

58970	CPT	Follicle puncture for oocyte retrieval, any method
89250	CPT	Culture Oocyte less than 4 days
89251	CPT	Culture Oocyte less than 4 days w/co-culture
89253	CPT	Assisted Embryo hatching, microtechniques (any method)
89254	CPT	Oocyte Identification from follicular fluid
89258	CPT	Cryopreservation embryo
89259	CPT	Cryopreservation sperm
89260	CPT	Sperm isolation; simple prep
89261	CPT	Semen analysis with sperm isolation
89264	CPT	Sperm analysis from testis tissue
89268	CPT	Insemination of oocytes
89272	CPT	Extended culture of oocytes/embryo(s) 4-7 days
89280	CPT	Assisted oocyte fertilization, less than or equal to 10 oocytes
89281	CPT	Assisted oocyte fertilization, greater than 10 oocytes
89320	CPT	Semen analysis volume, count, motility and differential
89337	CPT	Cryopreservation, mature oocyte(s)
89342	CPT	Storage, embryo(s) per year
89343	CPT	Storage, sperm/semens per year
89346	CPT	Storage, oocyte(s) per year
J0725	CPT	Injection chorionic gonadotropin per 1,000 USP Units
J3355	HCPC	Injection, urofollitropin, 75 IU
S0122	HCPC	Injection, menotropins, 75 IU
S0126	HCPC	Injection, follitropin alfa, 75 IU
S0128	HCPC	Injection, follitropin beta, 75 IU
S0132	HCPC	Injection, ganirelix acetate, 250 mcg
S4011	HCPC	Identification and incubation of mature oocytes, fertilization with sperm, incubation of embryos and visualization for determination of development

S4022	HPCPC	Assisted oocyte fertilization, case rate
S4030	HPCPC	Sperm procurement and cryopreservation service, initial visit
S4031	HPCPC	Sperm procurement and cryopreservation service, subsequent visit

-------	--------	----------------------------------

Benefit Limitations and Exclusions:

- Any infertility services or supplies beyond the benefit maximums (dollars or procedure limits)

The following services are excluded (even when the Plan provides benefits for infertility):

- Donor services for donor sperm, ovum or oocytes (eggs), or embryos.
